

Dear CRTPA Subcommittee members,

Since June of this year Cambridge Systematics has been working on preparing a "Needs Plan" for the Year 2030 Long Range Transportation Plan. The Needs Plan identifies all transportation projects that will be "needed" to serve accommodate the movement of transportation in this region in the year 2030 including bike and pedestrian, transit, and roadway projects. The Needs Plan will be presented to the CRTPA Subcommittees in September, however, it is anticipated that the agenda will be very full since the CRTPA has not met since June. Therefore, CRTPA staff in conjunction with Cambridge Systematics will be holding a meeting to present the Needs Plan to all of the Subcommittees on August 29th. We will also be taking comments, questions, and any concerns that you have regarding the Needs Plan. We are hoping that many of you will be able to attend so you will be familiar with the Needs Plan when it is presented to your individual subcommittee in mid-September. The meeting is scheduled for:

August 29, 2005
1:30 PM - 4:00 PM
City Commission Chambers

If you have any questions regarding the meeting please do hesitate to contact me at 891 8622, 891 8540, 694 1440 or via e-mail.

Thanks in advance for your time.

Jack Kostrzewa
